

Peace of Mind with Aerial Platforms Carlisle Ltd

APC Protect and APC Protect+

Why? – All APC machines are hired out under CPA terms & conditions of hire, whereby the HIRER is responsible for the loss or damage of equipment hired. Costs of damages in use can be extremely high, and if the machine is lost or stolen, the full replacement cost could be more than 100 times the weekly hire rate.

How much will it cost ? – APC Protect is 10% of the hire rate, APC Protect+ is 20% of the hire rate.

What does APC Protect and APC Protect+ cover? – APC Protect and APC Protect+ will cover all repair expenses and accidental damage except those specifically excluded beneath.

How do I apply? – To take advantage of APC Protect, simply register your interest with the Hire Desk Controller and the charge will be added to your hire invoice. It is not compulsory, but we strongly recommend you consider this cost effective precaution! There are two levels of protection.

Are APC Protect and APC Protect+ classed as insurance? – APC Protect is designed to offer customers an indemnity against machine damage charges plus a number of other liabilities, subject to their meeting basic obligations under the hire contract.

APC Protect is an indemnity scheme, operated by APC, NOT an insurance policy. No underwriters or third parties are involved.
